Statement outlining results, risks, and significant changes in operations, personnel, and programs

Introduction

This quarterly report has been prepared by management as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board, and it should be read in conjunction with the Main Estimates. This quarterly report has not been subject to an external audit or review.

The Office of the Auditor General has one program activity: legislative auditing. The Office conducts independent audits and studies that provide objective information, advice, and assurance to Parliament, government, and Canadians.

Mandate

The Auditor General is an Officer of Parliament, who is independent from the government and reports directly to Parliament. The duties are set out in the *Auditor General Act*, the *Financial Administration Act*, and other acts and orders-in-council. These duties relate to legislative auditing and, in certain cases, to monitoring of federal departments and agencies, Crown corporations, territorial governments, and other entities.

Basis of presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the Office's spending authorities granted by Parliament and those used by the Office consistent with the Main Estimates for the 2015-16 fiscal year. This quarterly report provides financial information on the use of spending authorities. The Office uses the full accrual method of accounting to prepare and present its annual financial statements that are part of the departmental performance reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

Highlights of quarterly and year-to-date results

The authorities available increased as a result of an increase in the statutory EBP rate (16.8% vs 16.5%) and salary adjustments resulting from prior year collective bargaining agreements. The authorities used decreased primarily due to the transition payment of \$2.1 million that was made in 2014-15 as a result of the one-time change from pay in advance of work performed to pay in arrears.

Risks and uncertainties

There are no significant risks and uncertainties to report.

Significant changes in operations, personnel, and programs

There are no significant changes in operations, personnel, and programs.
